Profile

Innovative Full Stack Developer with a strong interest in creating modern, responsive, and user-friendly web applications. Dedicated to learning new technologies and applying creative problem-solving skills to real-world development projects.

Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, MySQL
- **Programming Languages:** JavaScript, SQL

Experience

Full Stack Developer Trainee

Fingertips | 7 Months

- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built responsive interfaces, integrated APIs, and managed databases.

Software Developer Intern

SAP (via Edunet Foundation) | Remote

- Developed and maintained SAP ABAP applications, implemented business logic, and performed database integration using SQL.

Projects

Hotel Management System | React.js, Node.js, Express.js, MongoDB

- Developed a full-stack hotel management platform with separate client and employee panels, enabling room booking, reservation management, customer records, room availability tracking, and administrative control through a secure and responsive interface.

Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, certifications, and professional information with a modern user interface and optimized user experience across devices.

Uber Ride Insights | SQL

- Performed data analysis on an Uber-style dataset using SQL queries, joins, aggregations, subqueries, and filtering techniques to identify ride trends, driver performance metrics, and passenger behavior patterns.

Spotify Database Project | SQL

- Designed and implemented a relational database for a music streaming platform, managing users, playlists, tracks, and albums while utilizing advanced SQL queries for reporting, analysis, and data retrieval.

Education

B.Tech in Computer Science and Design

G.H. Patel College of Engineering & Technology | 2025 | CGPA: 8.0

Certifications

- SAP Certified - Backend Developer (ABAP Cloud)
- Introduction to Structured Query Language (SQL) - Coursera
